DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12 January 2006 has been entered.

Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 4. Claims 5-8 and 10 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The presence of liquid crystals disposed between the base plate and display plate is critical or essential to the practice of the invention, but not included in the claim(s) and thus not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). The only device supported by the disclosure as originally filed that comprises a base plate, display plate, transflective layer, color filter, and two pluralities of

Application/Control Number: 10/692,073 Page 3

Art Unit: 1773

electrodes is a liquid crystal display, and in such a display, the presence of liquid crystals disposed between the base plate and display plate is critical and essential to the practice of the invention.

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 7. The term "lyophilic material" and "lyophilic film" renders claims 1-10 indefinite because it has been held that claims merely setting forth physical characteristics (e.g. lyophilic) desired in an article and not setting forth specific compositions which would meet such characteristics are invalid as vague and indefinite since they cover ay conceivable combination of ingredients either presently existing or which might be discovered in the future. The expression is also too broad since it appears to read upon materials that could not possibly be used to accomplish the intended purposes, such as a salt layer which would exhibit a lyophilic property towards aqueous coating compositions due to its polar nature but would dissociate upon extended exposure to the coating composition. See *Ex parte Slob*, 157 USPQ 172.
- 8. Claim 11 recites the limitation "[t]he method according to Claim 1" in the preamble. However, there is insufficient antecedent basis for this limitation in the claim since claim 1 is directed to a device and not a method.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (571) 272-1518. The examiner can normally be reached on Monday through Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney, can be reached at (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
